

### **Minor in Aerospace Engineering (Autumn semester 2020-21)**

The issues with the registration of Minor courses in AE are now resolved and the students can register for the normal courses (for which minor option is available) and later retag them as Minor upon the approval of Aerospace Engineering department.

The list of AE courses which can be taken and retagged as Minor is as follows:

- AE 227 Solid Mechanics; (Not available to students of CE, ME, EN)
- AE 225 Incompressible Fluid Mechanics; (Not Available to students of CE, ME, EN, CL)
- AE 223 Thermodynamics and Propulsion; (Not Available to students of CE, ME, EN, CL)
- AE 308 Control Theory;
- AE 330 Aerospace Propulsion (prerequisite: AE 225M, AE 236M or equivalent);
- AE 333 Aerodynamics (prerequisite: AE 225M, AE 236M or equivalent);
- AE 326 Vibrations and Structural Dynamics (prerequisite: AE227M or equivalent);
- AE 407 Modelling and Simulation;
- AE 410 Navigation and Guidance;

(Head of the Department)
