

ITEM DESCRIPTION

2K Watts output single phase (input 4K watts) H.F.P.V.C. Welding Machine with following features :

1. Throat Length:- 250 M.M.
2. Press Stroke Distance:- 50 M.M. (Max.).
3. Operating Power :- 4 K.W. (Input Single Phase).
4. Anti Flash Circuit.
5. 4th Caster wheels for easy movement.
6. Variac for H.T. Transformer to control output power.
7. Gap Controller i.e. Pressure stopper to give uniform Pressure.
8. Synchronous L & T make timer to give accurate timing.
9. On-Off switch with key to avoid misuse.
10. 10 meter long input supply cable.

> Entry made on DSR-62 of Aerodynamics.
